

How To BROWSE My LESSONS!

The best way to browse all my video lessons, song sheets, and PDFs is to use my official website

PLAYSONGNOTES.COM ↗

Free to use, no login required, and easy to browse everything 🤘

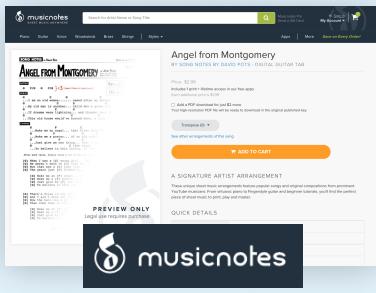

- View my [most recent lessons](#) or search for something specific
- Browse all my song lessons by [artist](#), by [title](#), by [decade](#), and more
- Use my [FretMonster](#) interactive web tool and other cool resources

My website is like the Sears catalog: it's a free directory of all my video lessons and related resources. It also explains how membership & premium content works. Whatever you're looking for, start here!

Each lesson page **link outs** to premium content for that song/topic

Song Sheet Music

Available for individual purchase at [musicnotes.com](#)

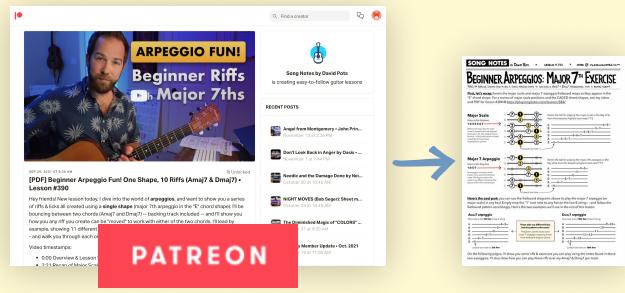

Sheet music you buy can be printed and viewed through the Musicnotes website & apps. You need a free account, but no membership is required.

Musicnotes is an online sheet music service, where I'm one of many teachers selling my arrangements (all of which are officially licensed and 100% legal). [Learn more](#).

In the past, some of my song sheets were free to download on Patreon, but as of April 2021 this is no longer the case (for copyright & ethical reasons). See [this post](#) for more info.

Instructional PDFs

Available to Song Notes members at [patreon.com](#)

PATREON

Instructional PDFs are attached to the bottom of each Patreon post (just above the comment section).

Patreon is a membership service, where I'm one of many teachers who offers membership to my fans. In return, you get perks (including access to my non-song PDFs and a [50% discount code](#) on Musicnotes purchases).

Patreon requires an account & login. Song Notes membership (through Patreon) costs a monthly or annual fee, cancel anytime. [Learn more](#) or [manage your account](#).
